PROFESSIONAL SUMMARY

Graduate Software Developer in Creative Computing from IADT. Very passionate about the technology space and always keeping up with the latest trends. Fluent in French having lived in France for 4 years, with excellent communication and interpersonal skills. A quick learner once I get set up. Very good at project management over the course of creating college and personal projects. I have a very strong understanding of architecting and implementing the key aspects of a software product. Really strong at working collaboratively and individually.
